Samtel Avionics wins big at the Economic Times (ET) Entrepreneur Awards 2026

New Delhi, 9 April 2026: Samtel Avionics Ltd., a leading Indian aerospace and defence electronics company, has been honoured for excellence in manufacturing at the prestigious Economic Times (ET) Entrepreneur Awards 2026, one of India's most esteemed platforms celebrating entrepreneurial excellence, innovation, and industry leadership.

Samtel Avionics received jury recognition in the 'Excellence in Manufacturing – Engineering and Allied Goods' category at the ET Entrepreneur Awards 2026, recognising organisations with exceptional capabilities in engineering design, development, and production. This recognition highlights Samtel Avionics' continued commitment to advancing indigenous manufacturing and delivering cutting-edge avionics solutions.

Held on March 25, 2026, at the Sahara Star Hotel, Mumbai, the ET Entrepreneur Awards celebrate outstanding achievements across industries and serve as a platform to honour innovation, business excellence, and entrepreneurial spirit. Samtel Avionics' recognition follows a rigorous evaluation process, underscoring the company's strategic vision, strong technological capabilities, operational excellence, and sustained impact in the aerospace and defence sector. In addition to this recognition, Samtel Avionics was also nominated across two prominent categories-Dynamic Entrepreneur and Strategic Visionary, reflecting the organisation's leadership strength and forward-looking vision in a highly competitive and strategic industry.

Commenting on the recognition, Puneet Kaura, Managing Director and CEO, Samtel Avionics, said: "We are honoured to receive this recognition at the ET Entrepreneur Awards 2026. Being acknowledged in the manufacturing category reinforces our commitment to innovation, quality, and self-reliance in defence and aerospace technologies. This recognition motivates us to continue contributing to India's growing capabilities in advanced manufacturing."

About Samtel Avionics Ltd.

Samtel Avionics is a leading Indian aerospace and defence electronics company, specialising in advanced avionics systems, displays, and mission-critical technologies. With a strong focus on innovation and indigenisation, the company plays a key role in supporting India's defence modernisation and aerospace capabilities. Samtel Avionics continues to expand its presence through cutting-edge solutions and strategic collaborations.
